

Hoosier Puts Any Kitchen On a War-Saving Basis

"White Beauty"
Advertised in Leading Magazines

THE kitchen is the real battleground in the war on waste. And the Hoosier Cabinet is the biggest factor in home defense. For America depends on her housewives to save their time and strength as well as food. Hoosier saves all three.

Men Have Conveniences — Why Not Women?

Factories, offices and farms all have the most modern machines to save men work and time and do things better than in old-fashioned ways.

Then why not the home? Why should any woman do double the amount of kitchen work necessary?

The Hoosier cuts kitchen work nearly half.

It saves food by preventing waste in measuring and mixing and by keeping supplies in protected places. By providing places for 400 articles within arm's reach, it saves miles of steps.

Warren and her son, Harry Warren, of Moscow, who were called here by the illness and death of Mrs. B. W. Warren, returned to their home this morning, accompanied by B. W. Warren, who went to Moscow with the body of his wife.

John Laney of Pearl street left this morning for Woodville, N. H., where he will visit friends for a few days. Before returning he will call on friends at the Grafton County farm in Haverhill, where he was formerly employed as a foreman.

A telegram received in Barre last night stated that the body of Albert S. Jones, a well known Barre granite manufacturer who died in Phoenix, Ariz., on Saturday, was shipped north Tuesday morning. It is expected that the funeral will be held in the First Baptist church Sunday afternoon.

Peter Gono, who has been spending the past few days at the home of his brother on the west hill, on a ten-day furlough, returned to-day to Philadelphia, Pa., where he is stationed at the League Island navy hospital yard. Mr. Gono, prior to his enlistment, was employed as a clerk in the Smith & Cummings store.

A number of Groton boys struck town yesterday on a bender and before night closed on the scenes of their good time. George R. Perry had been locked up on an intoxication charge. Perry was arraigned before Magistrate H. W. Scott in municipal court this morning for the offense, which he admitted. A friend of George's who had been regaling habitués at police headquarters with stories of the Barre that he used to know thirty-five years ago, paid his companion's fine, with costs.

County Game Warden Ernest S. Newcomb returned this morning to his home in Waterbury Center, after having investigated the charge that dogs chased a deer in the vicinity of East Barre recently. A man who is said to own the dogs was questioned by Deputy Game Warden Charles Keith, with the result that the county warden was asked to continue the investigation. A conference of the officers from the fish and game department was held in the office of State's Attorney Earle R. Davis last evening.

A Barre motorist, whose collection of nails and tacks picked up in the highway with the aid of an auto tire numbers three in as many weeks, suggests that persons, firms and corporations and street departments as well, would perform a public service by going over their ash piles with a powerful magnet before spreading them in the street. This suggestion was offered while the motorist was extricating a nail which connected with one of the rear tires on his truck yesterday.

Charles Ayer of Richardson road is detained by illness from his duties on a rural delivery route running out of Barre, and during his absence Robert Bassett is acting as substitute carrier. Dean T. Bassett of upper Prospect street, who lately petitioned for a respite from carrying the mails on route No. 3, is taking an extended vacation, and while he is away James Johnston, who recently closed his livery stable near the post-office, is carrying the mail on No. 3.

Thousands of feet of hard and soft wood lumber have been cut on the Ward-Cutler-Gladding tract east of South Barre, and while much of the energy of a sizable crew of lumbermen is being centered in the stream sawmill erected last winter, there are several choppers still at work. Passersby have been surprised to note that second growth, along with sturdier birches, maples, beech and fir trees have been felled by the axemen, but it is explained that the entire tract is to be sold as wood land that the E. L. Smith Co. may extend its dumping ground. Another winter will suffice to convert the wooded area into a site for an excellent dumping ground.

All signs point to an unprecedented drive for brook trout when the season opens Monday. The year's supply of fishing and hunting licenses, together with combinations of both, was delayed in arriving at the city clerk's office, and during the past few days there has been a heavy demand for the permits on the part of anglers who believe that the important matter of securing a license should not be delayed until the eleventh hour. No change has been made in the price schedule in effect last year, and a sportsman still may save a few pennies by purchasing a combination hunting and fishing license. However, the fishing license alone has the call at the present time.

Members of the Spaulding high school basketball team, which won the Northern Vermont Interscholastic league championship recently, together with Coach James Kendrick, were photographed yesterday afternoon at the Rockwood studio. The championship cup, which is to be held by the Spaulding team until the close of next season, is being displayed in the window of the E. A. Drown drug store, together with the basketball, which has been appropriately lettered. The cup, which was won two years ago by the Burlington team and last season by the Montpelier high school team, has been engraved with the names of the winners of each season's championship. Both the cup and the basketball will be placed in a suitable position at the Spaulding building at an early date.

Why Should You Buy Early

Last January we told you to buy for spring and save one profit. Now we tell you to buy for summer and save two profits. Just so long as this war lasts prices will continue to advance. Goods bought now for summer will give you a saving. Goods for next fall another saving. Goods one year from now will be half as much more as they are today. There is no guesswork about this. Remember this statement. We have several lots of goods that are today quite a bit under the market prices. Prices good only on these special lots.
